To

Hiring Manager,
HR Department .

To whom it may concern,
Dear Sir/ Madam,

I am Isuru Atthanayake, a Software Engineering undergraduate student at Informatics Institute of Technology (IIT). I completed my second year and looking for an internship where I can utilize my skills and gain experience of working as a part of a team in the Software industry and also improve my skills. I always look forward to working on challenging and growth-oriented projects that allow me to showcase my interpersonal as well as technical skills.

I was an active student at Kingswood College Kandy who had a keen interest to learn about new technological aspects in lines of the Software Industry.

Some of the technical skills that I am interested in are Web Application Development, Mobile Application Development, Software Application Development, Graphic Designing, and also I have experience in working with HTML5, CSS3, MySQL, Java, Flutter, Bootstrap, React, SEO, C#.NET, Java, Python, Adobe XD etc.

I am always a motivated person who critically solves the challenges by myself and I am sure that I can help your company to achieve the company goals by utilizing my skills while accomplishing my personal goals. I went through your company website and realized that my interests well align with your organizational interests. Please consider me for the following position that I have applied. Kindly looking forward to hear from you.

Thank You.
Best Regards,
Isuru Atthanayake.

- Teamwork & Collaboration
- Critical Thinking
- Leadership
- Hard Working

PROJECTS

Athlete-Poser.
Software Development Group Project.
(Mobile App to predict the accuracy of athlete's movements).
- Python
- Flutter

FORMULAR 1 CHAMPIONSHIP Manager
Object Oriented Programming Module
(Java program which simulates the manipulation of a Formula 1 racing car championship).
- Java(OOP concepts)
- Swing

Hotel management system.
Software Development II
(Management System for maintaing a Hotel).
- Java

Student Grading System.
Software Development I Module
(Grading System to predict progression outcomes of academic years in University).
- Python

Weather Prediction System.
(Prediction system to predict the current weather).
- Python

Aibots E-commerce website.
(E-commerce website to order Autobots online and provide a guidance for beginners).
- HTML
- CSS
- PHP
- JavaScript
- MySQL

ALL ABOUT SPORTS
Web Design and Development Module
(E-commerce website built for the sports sector to order sports items online).
- HTML
- CSS
- JavaScript
- SVG

Library System
(Management System for a Library).
- C#.NET

Individual Tuition Management System.
(Management system for tutors).
- C#.NET

Minion BUDDIES
(15 min Animated & Dubbed Cartoon).
- Adobe Flash

CO-CURRICULARS
